

Broadway Beginners 2

This is a junior-version of our popular 3-in-1 classes. Students will be exposed to approximately 15 minutes each (just right for their age and attention span) of acting, singing, and dancing. They will learn and perform an all-group number from a Broadway musical.

The focus on ensemble performance will foster students' growing sense of teamwork and underscore the need for practice and preparation in a performance setting. This class builds self-confidence and begins to make young children aware of the positive effect that strong communication skills can have on themselves, their peers, and adults.

The class concludes with a performance at our end-of-semester recital.
